ABSOLUTE PRINT GRAPHICS

To benefit our customers,

- ... we have added, to our already extensive digital services, an **iGen 4 EXP**, a production quality, large format digital press. The iGen4 EXP's 26" sheet size enables jobs that aren't possible on a traditional digital press. With exclusive *Matte Toner technology*, this press was developed with three key ideals in mind: print quality, efficiency, and versatility.
- ... recently added is the **Morgana Autocreaser** with its SmartScreen technology, enabling precise, hands-off creasing. This eliminates the cutting and tearing action of a traditional rotary scoring machine.
- ... we also have the **Rimage Professional Series CD/DVD** recorder. A solution for recording and printing CDs and DVDs. The Everest thermal printing system offers vivid graphics with sharp, easy-to-read text.
- ... visit *www.absolutepg.com* for more information regarding our company and our solutions.

Sincerely,

Kevin Mergens
